***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

2. Claim 16 is rejected under 35 U.S.C. 102(a) as being anticipated by Liao.

Liao discloses the use of a drumhead comprising a frame member having a generally upper member(4) and a generally lower member(5) parallel to a spaced apart from the planar upper member, a material(3) for constituting a drumming surface, the material having a rim portion including a generally vertically continuous wall (30), wherein the shoulder extends flat across the area defined between the inner rim and the outer rim (see figure 2), a means to secure the material constituting a drumming surface between the upper member and the lower member of the frame member.

***Claim Rejections - 35 USC § 103***

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 17-19 are rejected under 35 U.S.C. 103(a) as being unpatentable over Liao.

Liao does not the specific use of an triangle, rectangular, and a shape.

However, it would have been obvious to one of ordinary skill in the art at the time the invention was made to modify the device a disclosed by Liao to use the shapes as discloses by the applicant in order to achieve a specific design choice.

5. Claims 1-15 are allowed.
6. Applicant's arguments with respect to claims 16-19 have been considered but are moot in view of the new ground(s) of rejection.
